Fire Wrecks Craig Home On Mariposa

Fire totally wrecked the house belonging to W. E. Craig and occupied by Dr. Welsh and his family at 210 Mariposa Thursday morning at about one o'clock. The fire was well under way when it was discovered by Mrs. Welsh who with her son were the only occupants of the house. Both were nearly suffocated by smoke before the blaze was discovered. Mrs. Welsh called Mrs. Craig, who turned in the alarm. The house and furniture were covered by insurance. The damage is estimated at \$5,000.

According to Fire Chief Tom Henderson, the fire department was at the fire and working three and one-half minutes after the fire whistle sounded, though a number of firemen could not be called because of a number of persons who took down their receivers to ask central where the fire was located. Though there is some improvement in this practice, Mr. Henderson says, there are still a number of persons who persist in calling central as soon as the whistle blows and by so doing put a handicap in the way of the fire department.

The local department has done a great deal of drilling under big city regulations and have developed team work that is much more effective than voluntary efforts on the part of the crowd. While the department appreciates the good intentions of the persons who try to assist the department, Mr. Henderson says, there will be much better coordination of effort and loss of property if those who gather at a fire will allow the firemen to work without interference from the crowd.

Observations

By G. B. M.

Too many holidays to leave much time for observation this week. Not that holidays mean less work, but merely a change that upsets the routine.

DO WE WANT IT OR DO WE NOT?

If you were at the fire Thursday morning you probably heard a number of people say we ought to have a paid fire department. People give every measure of credit to the volunteer firemen. The marvel is that they get on the scene so quickly when they are so widely scattered. But when the house is burning it is easy to convince any body that there ought to be at least one or two paid men right on the job, ready to jump on the engine at any hour.

Some men who have counted the cost still say we must have a paid department. Most of those who talk about it probably have not figured what it would add to their taxes and would shout loudly about the burden if there had not been a fire for a reminder about the time their tax bills arrived.

At any rate it is a burning question, and that's no joke. What do you think about it?

MAKE THE PICNIC AN ANNUAL EVENT

The old settlers picnic was a great success as far as it went. But the success will not be complete unless it results in establishing an annual event.

An annual homecoming would be a great thing for Sierra Madre. Admission Day is a good time, just about the opening of school when most people are back from vacations. It deserved careful planning long in advance, widespread advertising and the best of staging when the crowd comes. This year's committee deserves great credit for the success achieved. They have learned a lot which will contribute to a greater success next year, when there ought to be a thousand people present.

Furthermore, out of the event there ought to evolve a local historical society. It may sound dull and uninviting, but it need not be so.

JUST FOR COMPARISON

I met W. W. Seaman on Broadway last Tuesday. He was greatly interested in the picnic plan but could not attend on account of a prior engagement. Mr. Seaman was one of the original purchasers from N. C. Carter in 1882, as mentioned in the Sierra Madre Vista, which we reproduced last week. He owned what are now the W. J. Lawless grounds until a few years ago. He also said

WILL DEDICATE SCIENCE CHURCH ON SEPTEMBER 27

The Christian Science church at the corner of Hermosa and Highland avenues, which was erected by the local society a few years ago, will be dedicated on Sunday, Sept. 27, according to an announcement of officials of the local church. The society follows the practice of not dedicating a church until it is free from debt and as the society is now entirely out of debt the date of the dedication services has been set.

The members of the church are preparing a fitting program for the occasion to which they have invited the public. One of the services will be held at 11 o'clock in the morning and the other at 3 o'clock in the afternoon.

Birthdays Celebrated By the O.E.S.

Monday night's meeting of the Eastern Star chapter was devoted largely to celebration of the birthday anniversaries of Mrs. Clyde Muskrath, worthy matron, and Mrs. Hortense Hill, past matron. The business of the evening was dispensed with in short order and a procession formed to march to the banquet hall. Upon arriving there the company found tables beautifully arranged and two huge birthday cakes with candles and everything.

The guests of honor were taken completely by surprise, their astonishment being equalled only by the merriment which reigned through the rest of the evening. More cakes, ice cream and coffee were served, and each of the guests was presented a beautiful potted fern. The evening's entertainment was in charge of Mrs. Hazel Morgridge, past matron.

The next regular meeting of the chapter will take place on the first Tuesday in October, with the annual advancement of officers. Last Tuesday night, Mrs. Dickinson, associate matron, and Mrs. Steinberger, conductress, attended the "advance night" of Eagle Rock chapter.

DeMolays to Work and to Dance Soon

The Monrovia chapter of the Order of DeMolay will hold an initiatory meeting at the Sierra Madre Masonic Temple on Friday evening, Sept. 18, at 7:30 o'clock. The chapter will initiate a class of Sierra Madre youths into the order, after which another class will be given their final degree. The meeting is open to all members of the order of DeMolay and to all Master Masons.

The order of DeMolay is an organization composed of youths between the ages of sixteen and twenty-one years and are the sons of Master Masons or their chums. The order is in no way connected with the Masonic order but is sponsored by one of the higher orders in Masonry.

The Monrovia chapter was organized about six months ago and a number of Sierra Madre young men are joining the Monrovia organization with the idea that eventually there will be a similar order in Sierra Madre. The chapter plans to divide their ceremonies and social entertainments between the two cities. On the Saturday following the initiation there will be a dance given for members of the order and their friends. The dance will be sponsored by the Dads of the boys joining and will be complimentary to the members.

The Pacific Electric car leaving Madre at 2 o'clock Wednesday afternoon and a gravel truck collided near San Marino, resulting in the almost total wrecking of both the truck and the car. No one was injured as a result of the collision.

Mr. and Mrs. Henry Olsen spent the holidays at Pismo Beach and Bakersfield visiting friends.

Tom Henderson spent the week end at Pismo Beach digging clams.

he bought the oak grove on the George F. Roberts property for \$250 and sold it a little later at profit which looked pretty good in those days. Think back—and then think ahead.

New Temple Dedication Is Impressive

Dedication of the new Masonic Temple by David J. Reese, Grand Master of Masons in California, on Wednesday night, proved to be as impressive as the event is certain to be momentous in the history of Sierra Madre lodge.

The lodge hall was comfortably filled by members and visitors, many of the latter being officers of lodges in various Southern California cities. The finishing and furnishing of the lodge hall having been just completed, it was the first opportunity afforded to see the ideal toward which the architect and committees in charge had been working. Their approval was both cordial and universal.

The old English plaster walls have been treated with two tones of old ivory, with delicate polychrome in the staff cornice. The thick carpet is a rich taupe, and the heavy velvet draperies in wine color are hung from attractive wrought iron fixtures. The mahogany furniture, acquired at great sacrifice when the lodge was first formed, fits into the scheme as if designed for the room. Pleasing lighting effects add the final touch of satisfaction.

Grand Master Reese was assisted in the ceremonies by Thomas J. Baker of San Francisco, grand lecturer; Dr. Robert J. Taylor of Claremont, grand chaplain, and Dr. Warren J. Gill of Los Angeles, grand sword bearer, and By District Inspectors Leslie M. Renaker, W. J. Stewart, W. A. Schreider, Rollie W. Miller, and Samuel E. Rodda. These, with past masters of Sierra Madre and other nearby lodges, filled the grand lodge offices for the occasion.

Illuminating comment by Grand Master Reese on the history of dedicatory ceremonies preceded the ritual work. In the due and ancient form used at the first recorded dedication of a Masonic temple 150 years ago, the building was then solemnly dedicated "to Freemasonry, Virtue and Universal Benevolence."

Inspiring Address

After commending the members of Sierra Madre lodge most heartily for the success of their building enterprise, the Grand Master made a brief address on the fundamentals of Masonry, in which he dwelt especially on the necessity for tolerance and mutual understanding among those who are working for the same high aims under whatever banner of religion or education. He expressed deep pleasure at such a happy culmination of a series of visits to the lodge, this being one his last official visits in Southern California prior to the expiration of his term with the holding of Grand Lodge in October.

The Grand Master called upon Past Master Morgridge for a brief statement regarding the temple enterprise. He responded by first expressing the appreciation of the lodge for the numerous acts of interest and helpfulness which had endeared the grand master to its members and caused them to feel a closer and keener personal interest in him than in any occupant of the office since the lodge was formed.

The history of the building enterprise was briefly told and fitting tribute paid to a few of those who had had important parts in it, with presentations of M. H. Bridle and J. A. Patterson of the pioneer masters of the lodge; O. R. Shearer and Jack Buchanan, who were present of the workmen on the building, and the indispensable trio—Donald C. Ashmore, master; Harold E. Allen, senior warden, and R. M. Finlayson, secretary and architect.

Grand Chaplain Taylor was called on for a few remarks, which he made in most captivating manner. Acting as grand orator, William A. Schreider delivered a brief but most inspiring address.

Preceding the lodge meeting, Mr. Ashmore entertained with dinner at his home Grand Master Reese, Grand Lecturer Baker, Inspector Renaker, George B. Morgridge, H. E. Allen and J. N. Hawks.

Mrs. Kittle Buie had as dinner guests Sunday Mr. and Mrs. Harold Britton of Hollywood, who were married last week. Mr. Britton is an intimate friend of Prentice Buie and is known by many young people here.

W. E. Craig left the first of the week for a vacation trip through Arizona.

School Will Start Here Next Monday

Sierra Madre school children will again be at their studies after next Monday morning. All branches of the local school system will be open on that date and from all reports work will begin in earnest within a comparatively short time after the first opening bell rings. There will be very little change in the local school system though it is understood that at least two of the teachers who had signed contracts to teach in the Sierra Madre schools will not return and their places are being filled this week.

The junior high school pupils will enter John Muir junior high this year and will be furnished transportation at the rate of six cents per day the same as to the Pasadena high. Those who furnish their own transportation will be allowed to enter John Marshall school if they so desire but because of the local car schedule the district cannot furnish transportation to that school.

According to word from the office of the Pasadena board of education, all high school students must be registered not later than Saturday, Sept. 12, or wait until Tuesday, Sept. 15. Monday will be a busy day, says Dr. John F. West, and there will be no time to register pupils who have delayed until that time. Students who registered last year will not be required to register again this year, their last year's registration being sufficient to carry them on the rolls.

Mrs. Fletcher White, clerk of the board of education, has received a copy of the resolution passed by the Pasadena board regarding the transportation of pupils living outside of Pasadena. This is the official notification that the agreement made last week by the Pasadena board has been put into effect and will apply at once.

PRESSURE CAUSES TROUBLE IN HILL DISTRICT OF CITY

Some readjustments will have to be made in the household plumbing of a number of the homes located between Baldwin and Auburn avenues on Olive, Mira Monte and Carter avenues, according to water superintendent Tom Henderson. Several hot water boilers have been reported to have burst as a result of the high pressure in that vicinity since the water department started using the Auburn canyon reservoir about ten days ago.

The water pressure in that district, Mr. Henderson says, is now between 120 and 155 pounds or a little less than the pressure on Live Oak. Formerly the pressure was from seven pounds to 20 pounds and the plumbing in many cases was so arranged as to take every advantage of the available pressure. It will be necessary, he says, to put in reducing valves which are not very expensive in order to insure against a possible bursted boiler.

Firemen to Give Dance Next Friday

The volunteer firemen will open the dancing season in Sierra Madre this year with a benefit dance on Friday evening, Sept. 18, at the Woman's club house. The dance will provide money for a clothing fund which is maintained to replace clothing ruined by the firemen while fighting fire.

Fire Chief Tom Henderson promises one of the best opening dances the disciples of Terpsichore have ever enjoyed. The smoothness of the floor at club house is a tradition and added to that the firemen are securing an orchestra which will be the last word in dance music organization. Negotiations are now under way for such an orchestra and will be announced later.

The volunteer fire department plan a number of dances and other social occasions for the coming season and promise that all of them will be put across with the usual enthusiasm and good feeling that has marked all previous firemen's benefit affairs.

Mrs. Nettie Hagood left Tuesday for a visit with her daughter, Mrs. Frank Parker, in Battle Creek, Mich.

NEW INTEREST IN STREET WORK IN S. M. CANYON

The street improvements in Sierra Madre Canyon park threaten to soon become a live issue again, after a lapse of several months, according to residents of that district who have visited the News office recently. At a recent meeting of the board of trustees the city engineer was ordered to prepare specifications for improvement of the streets under the improvement act of 1911, which calls for the improvement of streets and assessment of the costs against the real estate benefited.

This change on the part of the board of trustees seems to be meeting with the approval of many of those who objected to the bond issue and at the same times seems likely to meet with the disapproval of many who supported the bond issue. The difference which rules the opinions of those interested is that the bond issue would assess the cost against both the improvements and the real estate while the present procedure will assess the cost against the real estate only.

Locals Are Trimmed by Monroviaans

The Monrovia firemen turned a cold stream of defeat upon the Sierra Madre firemen at the ball game held at the Sierra Madre park Wednesday afternoon. When the score-keeper put counting the score stood 20 to 4 in favor of the visiting team after twelve innings of hard play on the part of both teams. Manager Tom Henderson declared that they would play until the Sierra Madre team score surpassed that of the visitors but as several on both sides had to work the remaining days of the week, the scheme was abandoned.

The game, however, was not as bad as the score would indicate. Early in the game Norm Morrison, catcher for the local wearers of the red suspenders, sustained a severely injured knee which made it impossible for him to stop many of the balls which did not approach his immediate vicinity and in the absence of a back stop the visitors had little trouble in arriving at the home plate after they had once reached third. Upon the arrival of Shorty Walsworth, Norm was sent back to the bench to nurse his knee and the game tightened up.

Considering the fact that several of those who played had never heard of playground ball until about two weeks ago, the local team showed up well. All the players had previous experience on the diamond and after they adjust themselves to the changes in distances it is believed that the Sierra Madre firemen will have a team to be proud of. They expect to continue their practice it is understood, and to arrange for a better diamond at the park near the pumping plant.

The lineup follows:

Sierra Madre—Morrison, c; Bastain, p; Heasley, rs; Miller, ls; Pratt, 1b; Udell, 2b; Norris, 3b; Hildebrandt, rf; Young, cf; Lorenzini, rf; Walsworth, sub.

Monrovia—Scott, c; H. Stevens, p; Noyer, rs; Silcott, ls; Moore, 1b; Miller, 2b; Beldin, 3b; Wood, rf; Bender, cf; V. Stevens, rf.

P. T. A. Will Hold First Meet Soon

The first regular meeting of the P. T. A. for the present year will be held at the Kindergarten building next Wednesday, Sept. 16, at 2:30 p. m. Heretofore, meetings have begun in October, but the advisory board feels that certain matters should not be allowed to hang on for a whole month, such as the children's 10:30 milk supply, the cafeteria problem and the matter of amending the by-laws of the association by bringing them up to date.

Plans for a teachers' reception and the entertainment of the Pasadena Federation of the P. T. A., which meets here in October, need immediate attention.

A report of next Monday's meeting of the federation will be made by the president.

The program chairman, Mrs. Crox-

Pioneers in Reunion at City Park

The community picnic in honor of Sierra Madre's pioneers developed into one of the most interesting affairs to be held in Sierra Madre in some years yesterday afternoon when some 300 people gathered at the city park to renew old acquaintances and to make new ones. The affair was fully up to expectations in every way and proved delightful to those present. There is considerable talk about making it an annual affair.

Much of the success of the picnic is due to Robert Steinberger, chairman of the committee, Tom Henderson, chairman of sports; Mrs. J. M. Steinberger and Mrs. W. C. Gruit, entertainment committee; W. J. Lawless, Ernest Green and Greer Caskey, who had charge of refreshments and supper arrangements, and to E. D. Burbank, who originated the idea and who worked as general utility man in putting the picnic across.

The sports program was a big success from every standpoint. Beside the ball game, which proved interesting to the crowd and not a little fun for those who played, there were a number of prizes given for various contests which were entered into by the picnickers and which were highly amusing and entertaining. Dr. Fred Staff of the Congregational church presented the prizes.

Prof. John Hart was given the prize bouquet for being the oldest settler registered at the picnic. He came to Sierra Madre in 1884, a few months before S. R. Norris, who was the second oldest settler. The bouquet was presented by C. W. Jones, the first mayor of Sierra Madre. Following the picnic supper which was of the old fashioned variety with plenty to eat from everyone's basket, Mrs. J. Milton Steinberger sprung a surprise in presenting to the crowd Hugo Kirchhofer, who led the community sings here a few years ago.

Mr. Kirchhofer led the community singers and won the hearts of those who took part, all over again.

The following list is the old settlers who were registered Wednesday afternoon. The list does not include anyone who has not resided in Sierra Madre for less than 20 years.

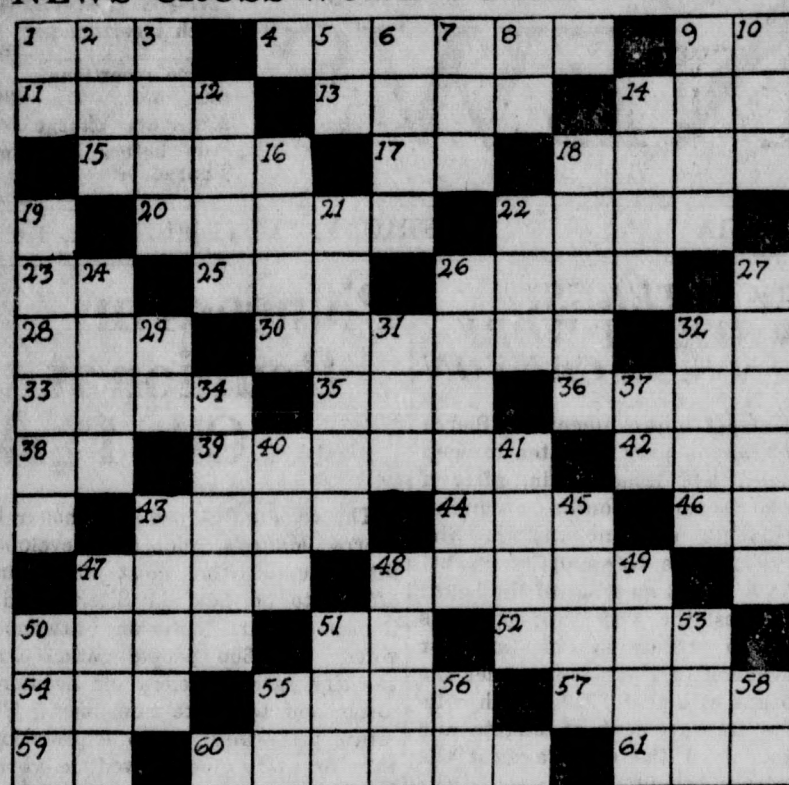

rs. Torrens Pratt, 1885; Torrens Pratt, 1886; James N. Hawks, 1887; Mrs. C. C. Bodine, 1901; Mrs. Ira O. Smith, 1903; Emilie Aspinall, 1905; Lucille Dixon Stewart, 1887; Willie M. Dixon, 1888; Mr. and Mrs. W. R. Lees, 1904; Mrs. G. Caskey, 1893; Mrs. Roy Edwards, 1893; J. Milton Steinberger, 1886; L. M. Rice, 1905; Oswald A. Bergien, 1905; Alice E. Tufts, 1889; Cora F. Costello, 1904; Harvey H. Steinberger, 1887; Colin C. Thomson, 1889; Bella Moss Hastie, 1890; William P. Caley, 1893; John C. Dickson, 1887; N. V. Morrison, 1904; Mrs. J. C. Dickson, 1887; Mrs. W. H. Spear, 1888; Alice M. Staples, 1900; Gilbert S. Bovard, 1892; Mrs. Fred R. Yerxa, 1905; Mrs. Frank Hart, 1888; L. E. Steinberger, 1885; J. J. Hart, 1884; Hattie Goodwin Miller Robertson, 1886; L. G. Miller, 1891; Harriet J. Hart, 1904; Caroline L. Osgood, 1886; Johanna A. Saenger, 1902; Mr. and Mrs. Martin Olsen, 1887; J. A. Osgood, 1886; M. C. Taylor, 1890; A. Olsen, 1887; Lydia M. Webster, 1890; Mr. and Mrs. S. R. Norris, 1884; Greer Caskey, 1893; Mrs. Mabel Olsen Medley, 1894; Mrs. Mary J. Pool, 1890; Mrs. R. J. Lord, 1905; Mrs. Alice Bixby Close, 1887; Lulu A. Bixby, 1887; Maggie G. Steinberger, 1885; Mrs. Etta Dickson Leguin.

son, hopes to have a copy of the year's program in the hands of every member and parent by October 1. It is urged that all parents and others interested in children attend these meetings and give their support to the association, for although the officers are earnest, eager and willing, and have already plunged into the work with enthusiasm, they cannot do it all and need the active co-operation and support of everyone.

Children are a community's best investment and surely that investment should be guarded and developed and its value enhanced.

Mrs. C. G. Hawkins, daughter of Mr. and Mrs. W. P. Caley, has returned from the hospital, where she had been for three weeks, recovering from an operation.

Beef Steak
Dance to Be
Club Feature

A beefsteak dance will be the first feature of the season's social program of the Woman's club this year. The date of the affair will be Sept. 26 and the place will be the beautiful grounds of the Judge Warren L. Williams home, 49 West Live Oak. Dancing will follow a dinner of barbecue beef steak prepared by local experts on the grill. The dinner will start at six o'clock, after which a good orchestra will furnish music for such of the crowd as feel the urge to dance.

This will be the first of a series of social affairs already planned for the coming season all of which will be both unique and interesting. The use of the grounds has been donated by Mr. and Mrs. Williams.

Church of the Ascension
(EPISCOPAL)

LONDON PAPER
TELLS STORY OF
LOCAL LIGHTING

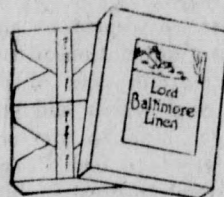

That Sierra Madre is known half way around the world seems evident from an article which appeared in the August 8th issue of "Tit Bits," a paper published in London, England. The paper was purchased on a news stand in Colorado by Robert

Mitchell of this city who was very much surprised to find an article about his home town.

The article tells of street lights on the Vogel tract on East Grand View which are designed to harmonize with the beautiful live oak trees. It also mentions Christmas Tree row at Altadena and compliments both projects in very high terms.

UNIQUE SERVICE NEXT SUNDAY AT BETHANY TEMPLE

This city is to have a most unusual and interesting service in Bethany temple on Sunday, Sept. 13, at 11 o'clock. The speaker is to be the Rev. Elias Zimmerman and his subject will be "Why the Jews Do Not Accept Christ." Mr. Zimmerman is formerly of Russia, where he attended a number of famous Rabbinical schools in his preparation for Rabbi. In a remarkable way he was led to embrace Christianity, and on account of his conversion he was compelled to leave Russia and later Germany and come to America. After graduating from one of the leading theological seminaries of this country he became the pastor of the First Presbyterian church of Smyrna, Georgia.

He is now one of the field representatives of the Williamsburg Mission to the Jews of Brooklyn, New York, which is the largest mission and located in the midst of 2,000,000 Jews. To hear a Christian Jew discuss Christianity from a Jewish standpoint is a novelty few Christians will want to miss. The public is cordially invited.

BRIEF ITEMS OF INTEREST

Mrs. J. G. Blumer and Miss E. Blumer left Tuesday for Hermosa Beach. They will be gone two weeks.

Mr. and Mrs. Alvin Langley spent the week end at Long Beach visiting friends.

Mrs. W. S. Hull and daughter Cynthia went to Long Beach Sunday to spend a week's vacation.

Mr. and Mrs. A. M. Scott and son, Jack, returned Saturday from Long Beach. They will be gone two weeks. home in the Canyon for the winter.

Mrs. Eva D. Moore, who has been spending the summer with her sister in Santa Barbara, has returned to her home at 71 Victoria Lane.

Mrs. W. H. Ingraham and son, Herbert ngraham, were members of a party which visited in Santa Barbara over the week end.

Mr. and Mrs. Clyde Muskrath spent the holidays at San Diego and Ensenada, Mexico visiting relatives.

Loribel Stanley was taken to the Menrovia hospital Thursday, where she underwent an operation for appendicitis. She is reported to be getting along nicely at present.

Mr. and Mrs. Arthur Johnson, Miss Edith Rust, Miss Dorothy Davis, Miss Catherine Davis, Ted Davis, Niland Walters and Tommy Miller spent Sunday at Balboa.

Father Bennet, rector of St. Rita's church underwent an operation for appendicitis at Long Beach the first of the week. He is reported to be getting along nicely.

Miss B. Hamilton, who has been at Venice for a short time, returned to Sierra Madre Saturday and will make her home in the Canyon for a while.

Mr. and Mrs. Edwin Ward returned from New York Thursday and will leave next week for Claremont, where Mr. Ward will enter Pomona college. Mr. and Mrs. Ward were married while in the east.

ODDITIES OF THE WIND

A prevalent idea about wind is that it consists of a mass of air moving steadily and with approximately the same speed in all parts. Such a wind is a rarity, says Nature Magazine, and perhaps never occurs near the earth's surface. A normal wind is full of waves and eddies, and it flows past any particular point in a succession of gusts and lulls. These irregularities in the wind are revealed by the movements of smoke pouring from a chimney on a windy day.

HORRORS OF EVOLUTION

A London girl on a visit to the country came to a pond whose shallows were full of tadpoles—thousands and thousands of little black tadpoles flopping about in an inch of mud and water.

"Oh," she said, "look at the tadpoles! And to think that some day every one of the horrid, wriggling things will be a beautiful butterfly!" —Exchange.

PROHIBITION LIMES

Prohibition has brought the lime out of the class of a concomitant of strong drinks into a popular summer beverage material and limes are now found in fruit markets where a few years ago they were seldom seen. Limeade and ginless rickies are be-

coming popular and refreshing hot weather drinks, much better for the human system and fully as refreshing. Lime juice with charged water, a ginless rickey, has been found to be as palatable a drink as with the alcoholic content, the flavor of the lime having formed the chief attraction so far as flavor went in this drink. Limes are also used now in making ices as a variant to the lemon and orange ices, the characteristic flavor making a very fine ice. The lime as a flavoring for iced tea in place of lemon is also a new use for this finely flavored fruit. It is also the chief component of flavoring syrups which have recently been put upon the market for the making of summer drinks. The flavoring of lime juice in fruit salads and gelatin puddings has become a popular one, thanks to the recipes sent out by growers of citrus fruits, who have shown many new ways of employing this finely flavored fruit formerly restricted almost wholly to beverages. It is not a stunted lemon as popularly believed, but a distinct species of the citrus family and with a flavor entirely its own and distinct from the lemon or grapefruit.

LIKING WORK

By THOMAS ARKLE CLARK
Dean of Men, University of Illinois.

MY NEIGHBOR Warner down the street is always busy. During the spring and summer I can see him at almost any hour of the day pottering about the yard. His lawn is always carefully mowed. His borders are in order. The little garden back of his house is carefully cared for. When snow falls during the late autumn or winter he is the first man in the street to have his walk cleaned. He is not satisfied with just pushing a reluctant shovel down the middle of the path to the street. He cleans the whole expanse neatly and painstakingly, and extends his labors to the walk along the front of his lot.

"Why do you work so constantly?" I asked him one day when he seemed more than ordinarily aggressive.

"I don't know any better," he answered. "But, anyway, I'd rather work than eat."

There are not many like him. Few people, whom I have known, would work if they did not have to, or through early necessity they had not cultivated the habit with such persistence that it is easier for them to continue the practice than to give it up.

Every autumn I am besieged by a crowd of young fellows who want a job, who are without adequate resources and who need to earn money. They go to their tasks like a boy to a licking. They have no enthusiasm for what they are doing. When an old acquaintance or a football game comes along, they fail to show up, confident that they will not be missed, or that someone else will take care of their tasks.

My father used to tell of a man who was regularly looking for work and hoping all the time that he would not find it. There are many like him, I am convinced, yet such men can

YOUNG MEN WILL START REVIVAL

Berwyn Thompson, chorister and violinist, and Frank Cummings, evangelist, opened their weeks of evangelistic services here Wednesday evening at 7:30 at the Woman's club house, 270 West Central. These young men have just closed a successful revival in Monrovia as well as many other points in Southern California.

Mrs. W. E. Doty and Mrs. L. E. Steinberger returned Monday from a two-weeks vacation at Seal Beach.

Mrs. R. W. Buck spent the week end in Los Angeles visiting friends.

Mr. and Mrs. R. J. Davies and son, Emerson, Mrs. Evelyn Davies and Philip McMann spent the week end in Santa Barbara visiting with friends.

hardly hope to make much advancement or to get much pleasure out of life.

One ought to like his work; he should go to it with pleasure and leave it with regret. The man who cannot bring himself to like work is due for a great many disagreeable moments if he lives long, for the majority of us will have a good deal of it to do before we go to our eternal rest, and possibly afterward.

The most unhappy people I know are the people who have no work to do, who spend their time as they like, and grumble because there is no variety in life. Work seems to me one of the greatest blessings that our Creator devised for us. When, for his disobedience, man was condemned to earn his bread by the sweat of his brow, I have always figured out that if he were not actually found "not guilty," he at least received the minimum penalty.

There must be more
than sympathy

WE feel keenly, of course, the trying moments when we must witness the sorrow in a home. We express our sympathy by understanding and anticipating the needs of the family, by gentle and kindly handling of arrangements.

But there must be more than sympathy and understanding. We recognize such an occasion as a trust—a business transaction in which value must be given and payment made. We believe our reputation proves that we are sincere in our service, and that we have tried diligently to merit the good-will of every patron.

It is worthy of mention that we handle the Clark Grave Vault, the recognized standard of protection, as well as other superior burial goods.

GRAVE VAULT

As It Occurred 18 Years Ago

In Those Days the Sierra Madre News Printed These Items
Now Copied from Files

The city trustees adopted an ordinance prohibiting the keeping, maintaining or using of slot machines in the city. An ordinance prohibiting sanitariums within a mile of the corner of Central and Baldwin occupied most of the board meeting and was put over for further discussion. City Attorney Walter F. Haas was directed to prepare an ordinance to compel the trimming of street shade trees to a height of eight feet above the ground.

Efforts were being made by music lovers to organize an orchestra under the direction of Prof. Oscar Seiling, a recent arrival in Sierra Madre.

E. W. Mead left for his former home in Georgia.

Mrs. M. Olsen and daughter have been at Redondo Beach for an outing.

W. C. Davis and family of Los Angeles have rented the Park House on Grandin Avenue for a year.

Mrs. C. E. Cook of Central avenue entertained at luncheon Mmes. E. M. Tufts, J. M. Campbell and J. A. Osgood.

Mr. and Mrs. F. O. Nichols, father and mother of Mrs. I. N. Ward, have arrived from the east and will probably locate here.

Irving Caskey and family, Greer Caskey, Van Graham and Adolphus Kershaw are taking a two weeks outing in Antelope valley.

Miss Gertrude Cook had as guests this week Miss Ida Hahn of Pasadena, Mrs. Cozette Dorland of Monrovia, Mr. E. J. Stone of Chicago and Mr. Milo Halsey of Los Angeles.

Miss Anise Coffey of Los Angeles sister of Dr. Titian Coffey, has just completed a fine house on LaBelle avenue and will occupy it in about two weeks.

The Sierra Madre Water company levied an assessment of 15 cents per share on all outstanding stock.

H. E. Twose and a company of local artists announced a play never before seen, to be staged at the Hotel Sierra Madre on Lima street, and entitled "The Lilliput Theater." Yerxa Brothers advertised legs of lamb at 12½c; pork chops 15c; rib steaks 10c to 15c.

Mountain Lion May Have Paid Visit to Town

Are there mountain lions near Sierra Madre? There may be, and again there may not be, but W. J. Lawless discovered traces of what he believes must have been one of the large North American lions near the mouth of Bailey's canyon. While out walking Sunday afternoon, Mr. Lawless came upon the remains of a calf which had been totally devoured with the exception of the skin. Mr. Lawless says the brush was beaten down and torn up in a way which would indicate that a much larger animal than a wolf or dog had been present.

The owner of the calf has not been found and a check of the ranchers in the neighborhood of the canyon indicate that no stock is missing. It is not known whether the animal was killed where it was found, was carried there by the animal attacking it, or whether it was dead and simply furnished an easy meal for the visitor. Mountain lions are said to inhabit the country back of Mt. Wilson but none of them have been seen near Sierra Madre in a number of years.

SIERRA MADRE'S MONTH'S PERMITS TENTH IN PLACE

Sierra Madre ranked tenth in building during the month of August among Southern California towns of the same class. Included in the list of eighteen towns of which Sierra Madre is one are a number of cities of much greater size and it will be noticed that there are only a few towns of the same size which have a better building record for the month just past.

The \$28,220, which is the estimated amount of the building projects undertaken last month, is the total of fourteen homes or garages, all of which range from \$500 to \$7,500. The list of eighteen cities in the order of rank for the month of August follows:

Monterey Park	\$38,095
Colton	32,875
Whittier	32,700
Ontario	31,400
Watts	31,205
Huntington Beach	31,175
Palos Verdes	31,160
Fullerton	30,193
Anaheim	29,080
SIERRA MADRE	28,220
Redondo	27,025
Oxnard	24,600
Newport	21,870
Manhattan	14,080
San Gabriel	13,350
Torrance	12,800
El Monte	11,875
El Segundo	4,525

DIPPING INTO SCIENCE

What Makes the Tide

Newton's law of gravitation explains that everything in the universe is attracting all other particles at all times. This attractive force of the sun and moon exerted on the earth causes the water to yield to this pulling movement, while the land, being rigid, does not so yield. Twelve hours and 28 minutes elapse between high tides.

Father Sage Says:

If cleanliness is next to godliness, then the average small boy must feel a long way from his Maker!

Don't Shoot in Los Angeles Co. Is New Law

Local Nimrods will have to find some place to hunt outside of Los Angeles county as a result of an emergency ordinance passed by the county supervisors a few days ago, which prohibits the discharge of fire arms inside of Los Angeles county, except in the protection of persons or property or by a police officer discharging his duty.

The news of the new ordinance fell as a severe blow to a number of Sierra Madre sportsmen who have planned dove hunts during the season which is now open and deer hunts during the season which opens within a few weeks. However, the supervisors claim that the dryness of the vegetation forms a real menace and that the discharge of firearms may result in the starting of a serious conflagration.

The new law does not apply to incorporated cities and will be automatically annulled by Jan. 15, 1926, providing the supervisors do not see fit to remove it from the county statutes sooner. The offense of shoot-

ing in Los Angeles county is punishable by a fine of not more than \$500 or six months in jail and the fire wardens are given the authority to see that the law is enforced.

DO YOU NEED MONEY?

To get the kiddies ready for school, to pay the Grocer, the Butcher, or to make a down payment on real estate, or some other purchase? Perhaps you have some other old bills you would like to clean up.

We loan money on installment payments. Ten months to pay. Interest reasonable.

NO COMPANY'S NOT COMING

If you drop a dish cloth, company won't come, save as a matter of coincidence. Popular superstitions like this are losing ground; so is the superstition that there is something mysteriously better about "eastern" motor lubricants, merely because they cost more and are made in the east.

The Right Way to Judge Motor Oils

More than ever, motorists are discovering that the test of an oil is not where but how it is made, and how it lubricates. That's why Zerolene—refined from selected western naphthenic base crudes—is today successfully lubricating more cars in the Pacific Coast states than any other oil made.

An Exclusive Process—What it Does

Lubricating qualities have never been more carefully or successfully preserved than by the processes used at Standard Oil Company refineries for the refining of Zerolene—the Zerolene high-vacuum process, the Zerolene process of filtration through 40 tons of Florida Fuller's Earth, the refineries' 15 positive checks for quality!

What Zerolene Will Do For Your Car

Zerolene will give your car better lubrication: it increases the gasoline mileage, reduces carbon-removal and maintenance costs and lengthens the life of any engine in which it is used. Why pay tribute to a superstition? Insist on Zerolene. Always ask for Zerolene by name.

Get the Facts!

A series of independent and impartial reports showing the experience of large users with Zerolene motor oil has been collected in our booklet, "Why Pay Tribute to a Superstition?" Ask any Standard Oil Company representative or Zerolene dealer for a copy.

Insist on Zerolene—even
if it does cost less

News Wantads Bring Results

Thrills for Film Fan at the Wistaria

Allan Dwan has produced an elaborate picture entertainment with a cast of recognized stars in his latest production for Paramount, "Night Life of New York," which comes to the Wistaria Theater Friday, Sept. 11, for two nights. The story is an original for the screen by Edgar Selwyn, adapted by Paul Schofield and featuring Rod La Rocque, Dorothy Gish, Ernest Torrence and George Hackathorne in the leading roles. In the story we find Ernest Torrence as John Bentley, who in his youth was jilted by a New York girl named Sally, and went west to make his fortune. Although he has married someone else and is very wealthy he has never gotten over his grudge against New York.

As an added attraction for the two nights Manager Billy Wall will exhibit "The Trackless Train," a picture which was secured only after considerable wire pulling on the part of the local manager.

Norma Shearer, who is starred in Hobart Bentley's production of "A Slave of Fashion," coming to the Wistaria Sunday, Sept. 13, for two days, is becoming a regular habitue of the Pullman. When she appeared in "Excuse Me," she worked through the entire picture on a Pullman train. Immediately after that she boarded a train for Montreal, a five days' journey from Hollywood. Then a couple of days later entrained again, that time for New York and a week later she started westward. In "A Slave of Fashion," made for Metro-Goldwyn-Mayer, she appears in a Pullman scene and though the sequence is a short one, the key to the whole story is in that episode.

"The Lucky Devil," Richard Dix's latest starring picture for Paramount, due at the Wistaria Wednesday and Thursday, Sept. 15 and 16, was written especially for Paramount's new star by Byron Morgan, author of "The Air Mail," and all the Wally Reid automobile stories. It brings Dix to the screen as an automobile racing driver—his finest role yet. Ester Ralston, who played Mrs. Darling in "Peter Pan," heads the supporting cast. Others are "Gunboat" Smith, Anthony Jovitt, new "find," Tom Findlay, Joe Burke and Mary Foy. An added attraction for these nights is a "Trip Through the Metro-Goldwyn Studios," which is said to be an accurate picture of the work of picture making.

In directing more than five hundred persons dressed in the fashionable New York attire of 1850 for scenes in "Not So Long Ago," Director Sidney Olcott was required to call up on a dozen interpreters to translate his orders to the crowd.

Each word spoken by the director was immediately translated into five different languages—Spanish, Italian, Russian, German and Danish. Featured in the cast of "Not So Long Ago," coming to the Wistaria for Thursday and Friday, Sept. 17 and 18, are Betty Bronson and Ricardo Cortez. The story is a screen version of Arthur Richman's Broadway stage hit.

NEWSPAPER BEST MEDIUM

"The newspaper is by far the most effective advertising medium for retail merchants," declared Hugh A. Marti of Long Beach in an address before the round table meeting of the Pasadena Advertising club. "I believe that advertising should be a secondary function of the papers, but the readers' interest would be materially reduced if the advertisements were removed. All papers are under obligation to protect their advertising columns from corruption." The speaker described the development of "Shopping News" which, he said, originated in Cleveland. The fact that very few "Shopping News" are successful he attributed to the lack of the three essentials, namely, a definite personality in character and production, the right kind of distribution, and organization of the business houses so that they retain control.

Mrs. Fred Pagenkopf returned to her home Tuesday afternoon after being confined to the Sierra Madre hospital for several weeks following an operation.

NOTICE OF AWARD OF CONTRACT

Pursuant to Statutes and to the Resolution of Award No. 263 of the Board of Trustees of the City of Sierra Madre, adopted August 27th, 1925, directing this notice, notice is hereby given that said Board of Trustees, in open session on the 13th day of August, 1925, opened, examined and publicly declared all sealed proposals or bids offered for the following described street work, to-wit:

That all that portion of
MIRA MONTE AVENUE
from the Westerly line of Baldwin Avenue to the Easterly line of Au-

burn Avenue be improved by certain grading and by the construction of certain two (2) inch oiled macadam pavement, cement curbs, concrete gutters, cement sidewalk, reinforced concrete culvert laterals with concrete intakes and that a portion of

BALDWIN AVENUE

between a line drawn across said Baldwin Avenue 6.65 feet northerly from and parallel with the northerly line of Mira Monte Avenue prolonged easterly across said Baldwin Avenue and a line drawn across said Baldwin Avenue 9.17 feet southerly from and parallel with the southerly line of Mira Monte Avenue prolonged easterly across said Baldwin Avenue be improved by certain grading and by the construction of two (2) inch macadam pavement, cement curbs, concrete gutters, cement sidewalk, the extension of the existing concrete culvert, construction of reinforced concrete laterals and the construction of a reinforced concrete top on said extension of concrete culvert and said laterals, and that a portion of

AUBURN AVENUE

between a line drawn across said Auburn Avenue 3 feet northerly from and parallel with the northerly line of Mira Monte Avenue prolonged westerly across said Auburn Avenue and a line drawn across said Auburn Avenue 3 feet southerly from and parallel with the prolongation westerly of the southerly line of Mira Monte Avenue prolonged westerly across said Auburn Avenue be improved by certain grading and by the construction of two (2) inch macadam pavement, cement curbs, concrete gutter and cement sidewalk, as shown on Special Improvement Plans hereinafter referred to, all as specified in Resolution of Intention No. 252 of said City of Sierra Madre, same being the Resolution of Intention for said work or improvement, in the manner and within the limits designated in said Resolution, and reference is hereby made to said Resolution for a further and more complete description of said work or improvement and the description of said work or improvement, in said Resolution contained is hereby expressly adopted and made a part hereof, the same as though fully set forth herein.

That all of the work aforesaid shall be done in accordance with and to the grades shown on Special Improvement Plans, Cross-Sections and Profiles Nos. 143 and 144 on file in the office of the City Engineer of the City of Sierra Madre and in further accordance with Special Specifications for said work on file in the office of the City Clerk of said City, adopted by the Board of Trustees of the City of Sierra Madre by Resolution No. 251 of said City. Said Special Improvement Plans, Cross-Sections and Profiles and Special Specifications are hereby referred to for full and detailed description of said proposed work or improvement, and for the description of the grade to which the work is to be done and are made a part hereof.

That the said work or improvement, in the opinion of said Board of Trustees of said City, is of more than local or ordinary public benefit, and said Board of Trustees declares that the district to be benefited by said work or improvement, and to be assessed to pay the costs and expenses thereof is described in said Resolution of Intention No. 252 adopted by said Board of Trustees the 11th day of June, 1925, to which said Resolution reference is hereby made for a description of said district.

That said Board of Trus-

tees also determines and declares that serial bonds bearing interest at the rate of seven per cent (7%) per annum shall be issued to represent each assessment of Twenty-Five Dollars (\$25.00) or more remaining unpaid for twenty (20) days after the date of the warrant. Said serial bonds shall extend over a period ending nine (9) years from the second day of January next succeeding the fifteenth day of the next November following their date. Payments on the principal of unpaid assessments and interest shall be made by property owners to the City Treasurer and the same shall be disbursed by him, all as provided in the "Improvement Act of 1911," hereinafter referred to.

That the proceedings for the aforesaid improvement shall be had and taken under and in accordance with an Act of the Legislature of the State of California, designated and known as the "Improvement Act of 1911," approved April 7, 1911, and under all Acts supplementary thereto or amendatory thereof.

And thereafter, to-wit: On the 27th day of August, 1925, said

Board of Trustees awarded the contract for said work to the lowest regular responsible bidder, to-wit:

To PASADENA PAVING COMPANY, at the prices specified in their proposal on file for said work, to-wit:

Grading, and construction of Two (2) inch Oiled acadam Pavement, per square foot of pavement 9.4 cents.

Cement Curb, per lineal foot 47.9 cents.

Concrete Gutter, per square foot, 20 cents.

Cement Sidewalk, per square foot 14.9 cents.

Extension of existing Concrete Culvert, construction of re-inforced Concrete Laterals, and construction of a reinforced Concrete top on said extension of culvert and said laterals, complete for the sum of One Hundred Fifty Dollars (\$150.00).

Sierra Madre, California, August 27th, 1925.

L. DIETZ,

City Clerk and Ex-Officio Clerk of the Board of Trustees of the City of Sierra Madre. 49:50

GREAT UNION TERMINAL PROJECT

The illustration shows the artist's conception of the proposed Plaza Union Terminal station, embodying the suggestions of the Allied Architects Association, as incorporated in the association's plans for the Los Angeles administration center. By this plan would be preserved two of the county's most important landmarks, the original plaza, and the plaza church, or old Los Angeles Mission. The upper sketch shows the general plan, and its relation to the administration center, and the lower sketch shows a cross-section of the great station, with the upper concourse and the main railroad tracks, and the lower concourse leading to local and inter-urban electric railways.

An early decision in reference to the adoption of plans for the new administration center of Los Angeles is regarded as a likelihood of the very near future, as the result of two important matters which have developed recently: the decision of the Interstate Commerce Commission authorizing the location of the new union terminal station in the vicinity of the plaza, and the awarding of the contract for the design of the new \$4,500,000 city hall.

Leading citizens feel that to permit either of these improvements to proceed without reference to any uniform scheme of development would be a serious error. The plans developed by the Allied Architects Association for this improvement are receiving strong support.

Landmark to Be Saved

In the plan referred to for the union terminal development, prepared after several months of careful study and research, many of the essential features of the original Sachse union terminal plan were retained. The oragization felt, however, that it would be an irremediable error to permit the destruction or impairment of two of the county's most cherished landmarks, the original plaza and the plaza church. The association, therefore, located the great terminal a block further eastward, and somewhat to the southward, than the site specified in the Sachse plan.

Under the new plan the union

BRIEF ITEMS OF INTEREST

Miss Helene Seeley arrived in Sierra Madre Saturday and will spend the winter here while she attends the University of Southern California.

Mrs. Hortense Hill had as luncheon guests on Thursday Mrs. Maud Owen and daughter, Opal, of Brawley, Mrs. May McDonald, Miss Alice Thomas and C. M. Thomas of Los Angeles.

Mr. and Mrs. Harry Buckingham were members of a party which spent the week end at Lake Elsinore.

Mrs. Helen Felker of New York purchased the two houses, 95 and 99 East Laurel, offered at auction by T. J. Burns last Saturday.

terminal plaza and buildings would occupy the entire block bounded by First, Temple, Los Angeles and San Pedro Streets. The railroad tracks terminate below the Temple Street viaduct, directly in front of the great concourse of the station. Beneath this station concourse there would be a second sub-surface concourse which would give access to local and interurban car lines, which would reach the station through the subways.

Big Open Spaces

The east and south sides of the union terminal plaza, equal in size to the great terminal plaza at the national capital, would be closed by buildings to house the executive offices of the various railroads. On the west the plaza remains open, connecting directly with the huge plaza which forms the dominating feature of the civic center.

Visitors to Southern California would therefore gain their first impression from the commanding vistas of beautiful parks and fine public buildings. En route to other parts of the city, or to other communities of the county, they would pass through this district over wide boulevards. It is thus believed that tourists would receive lasting impressions of Southern California which would greatly redound to its credit.

Local Girl Is Wed to J.W. Jordan

Miss Charlotte McDonald, daughter of Mr. and Mrs. Ed McDonald, 620 E. Central, and J. W. Jordan of Pasadena were married at the home of the bride's parents, Monday afternoon, Sept. 7, at 4 o'clock. Rev. Elwood P. Lyon of Bethany Temple officiated at the ceremony which was held in the garden of the McDonald home before an altar of ferns and asters. The bride was attended by her aunt, Mrs. M. G. Preece, who wore a gown of periwinkle blue crepe de chine. She carried lilies and pink rose buds.

The bride wore a gown of white georgette over an orchid satin slip. She carried in her hands a beautiful bouquet of lilies of the valley and orchids.

The groom was attended by George Anderson of Pasadena. Mr. Jordan is the son of W. G. Jordan of the Tooker-Jordan corporation of Pasadena. Handel's wedding march was played by Miss Florence Evans.

The ceremony was attended by about 35 friends of the bride and groom. Immediately after the reception, which followed the ceremony, Mr. and Mrs. Jordan left for a wedding trip through Northern California. They will make their home in Pasadena after Oct. 1.

Mr. and Mrs. H. E. Allen and family returned the first of the week from a vacation of two weeks at Balboa Island.

Miss Harriet Hosmer arrived from San Diego Thursday evening for a visit with Miss Marjorie Thomas.

Around Our Town

Miss Ella Shepard Bush returned home last Saturday after enjoying a week's visit with her nephew and his wife, Captain and Mrs. George P. Bush, at the Presidio, San Francisco. While there she enjoyed the privilege of inspecting the famous Walker collection of paintings by great artists in the palace of the Legion of Honor, the new art gallery of San Francisco.

S. R. G. Twycross writes the editor of the News that he and Mrs. Twycross arrived safely at Cedar Grove, Me., and were rejoiced to find his sister, Miss Lily Twycross, somewhat improved in health, following her recent stroke. He says the old Kennebec river and surrounding country are at the best now, with no cold weather yet to cause discomfort.

Dr. May C. Laidlaw will have charge of the next chamber of commerce luncheon to be held on Tuesday, September 15, at noon at the Sierra Madre Cafe. Dr. Laidlaw has secured a speaker from Los Angeles to come to Sierra Madre next Tuesday and a large attendance is expected.

Jeanette Hapgood was the guest of honor at a chicken dinner given by Mrs. Pauline Wolpert, 255½ N. Grove street, Friday, Sept. 4, the occasion was the guest of honor's sixth birthday. Mr. and Mrs. George Hapgood were also present.

Mrs. F. A. Pagenkopf of West Laurel avenue was returned home Tuesday evening from the Sierra Madre hospital, where she had been for eight weeks after a very serious operation. She is reported to be doing nicely.

Mr. and Mrs. Percy M. Moore and children, Edith and Stanley, of Ingewood were the guests of Mrs. George M. Lehner over Sunday.

Mart Graham, Harry Peterson and Marvin Webster returned Saturday from a trip through Yellowstone National Park and Wyoming.

Mr. and Mrs. Arthur W. Larson and Mr. and Mrs. Henrietta M. Baker of Hollywood spent the day with Mrs. George M. Lehner Saturday.

An eight-pound daughter arrived on Sept. 4 at the home of Mr. and Mrs. Harold W. Hart of South Fletcher avenue, South Pasadena.

Mrs. Tom Henderson and son, Johnny, returned from Long Beach Wednesday. They were gone ten days.

Two hundred twenty-five freshmen, including 100 women and 125 men, representing many Southern California and coast communities, a majority of the states of the Union and several foreign countries, open their collegiate work at Pomona college Monday, Sept. 14.

This year's freshman class will be the first in the history of the school to participate in the advantages provided by Freshman Week, a new innovation in coast institutions.

Fall Styles Becoming
to Mature Figures

When style edicts for fall were announced and the simple, straight-line frock demoted to the rear ranks of fashion, there was much misgiving in the minds of many matrons. What would plaited or flaring skirts do to the full figure—how could the new hues be managed to slenderize the stout woman? These were the important questions that occupied the thoughts of stylists and fashionables. Look at the picture of the new fall frock, shown here, and see how satisfactorily the questions have been answered. This is a French gown and reveals once more the ingenuity with which the French solve style problems. Note the long bodice, the skirt falling to the front, the long sleeves, straight-hanging tie and unbroken line of the scarf that hangs from neck to hem. Nothing could be more becoming to a full figure.

Crack Pirate Twirler

Photo shows Emil Vede, pitcher of the Pittsburgh Pirates, in action. He is one of the most dependable of the Pirate hurlers, and is one of the reasons that the McKeehle crew have a great chance to cop the pennant.

Paris Elaborates
Practical Blouses

The French exercise their talent for ingenuity even on the simplest and plainest utility clothes, and now that fashion approves elaboration they are in their element. Here is a crepe de chine blouse which Paris contributes for wear with tailored skirts or suits and the designer has taken advantage of the vogue for platings in adorning it. A group of plaits at each side and a front panel in the "shirt-front" manner, outlined by the plaited crepe, are clever details. Lace medallions are in the panel and plaited cuffs finish the sleeves in harmony with the blouse.

WANTADS

SPECIAL NOTICE
